

Fun and effective English learning for pre-readers

Let's Go focuses on the basic framework of English. It follows the 4-skills path: listening, speaking, reading and writing. Designed specifically for English language learners, it develops the language base that is a prerequisite for effective literacy development. An early emphasis on oral skills, vocabulary, and phonemic awareness is followed up with spelling, sentence construction, and sentence reading exercises.

The DynEd Advantage

Let's Go builds a strong foundation in both spoken and written English for pre-readers, early readers, and English language learners. *Let's Go* integrates reading, listening and speaking skills by balancing alphabet and phonics work with word-recognition and sentence-making activities. Children learn to sound out words and figure out meanings from grammar and context.

Children follow Sam and Ginger, their feline guides, on a word-discovering journey around the house, the classroom, the schoolyard and the neighborhood. Sam and Ginger's animated world is ripe with words. Children learn new words while investigating games, food, the weather, animals, etc. As they tour the town on the school bus, they build sentences, sing songs, learn phonics with rhyming sounds, and play a variety of word games.

Let's Go is based on the world's most successful English language textbook series for children published by Oxford University Press.

Contents

Let's Go is composed of 6 levels, each divided into 8 units. Learners are introduced to each unit with engaging songs by Carolyn Graham. Grammar lessons teach learners to construct sentences using new vocabulary and they have fun participating in the phonics lessons. Conversation lessons reinforce the vocabulary and grammar learned in each unit. Each level also provides educational games and an instant record and playback feature.
